## Strollin' With Stroman

By Dean Stroman

Fall bass fishing can be some of the fastest action you will have all year. When nights start cooling and day time temperature is in the sixty to eighty degree range, summer time temperatures will start cooling rapidly which will trigger major shad movements to most creek channels and bass will not be far behind. Schooling activity on the surface and around creek channels in twenty to thirty feet of water will be where most of Fork's hot bass action will be. Main lake points, flats and timber edges that are on or near creek channels will be some of the best hot spots. If you have all three conditions, you will sure enough have a honey hole.

As the water begins to cool with the advent of

cold fronts in the fall, bass will become very active. Most bass will not return to the back ends of creeks where they spawn, but many will roam the creek channels from around the back half of the creek channels out to where the creek opens into the main body of water.

Barometric pressure will play a major role as fall approaches and as cold fronts start showing up every five to seven days. The effect barometric pressure has on bass and all other predator fish is more significant than most people realize. During a rising of high barometric pressure, water becomes denser. The more dense water slows the activity of bass. As the barometric pressure falls, water is less dense and

bass activity increases. During low pressure conditions schooling activity across the lake will intensify.

During September most of Fork's bass action will be in depths above twenty feet. Toward the end of the month as water temperature approaches sixty degrees, bass will follow the shad population deeper and deeper. When a series of cold fronts change the water temperature several degrees in a

day or two, the mid-depth and shallow activity will cease and the deep bite will be where the action is. Twenty to thirty foot depths will be loaded with active bass and baitfish.

## Game Warden Field Notes

The following items are compiled from recent Texas Parks and Wildlife Department law enforcement reports.

**—Caught on Instagram—** A Guadalupe County game warden received a call from a Gonzales County game warden with some information about a potential illegal deer harvest teenagers posted to Instagram. The Guadalupe County game warden did some investigating and found the teenagers who posted their harvest and interviewed them. After making several excuses about why the warden found deer hair and blood in the bed of one teenager's truck, the teenagers confessed to shooting a deer off the road in Wilson County two nights prior. The warden contacted a Wilson County game warden, who said he'd received a call about a shot that night in the same area and a description of a vehicle that matched the teenager's truck. The teenagers then showed the Guadalupe County warden where they shot the deer. There was still fresh blood on the road and on the nearby fence. The teenagers were charged with 10 Class C misdemeanor hunting violations and a .270 rifle, spotlight and meat were confiscated.

**—No Fish Tank License—** While patrolling Toledo Bend, a Newton County game warden observed a fish tank in a truck with displaying commercial markings required for selling aquatic products. Upon further investigation, the warden could find no matching valid

license for selling bait. The warden issued the man a citation and the case is pending.

**—Gone Net Fishing—** Two Freestone County game wardens patrolling Richland Chambers Reservoir encountered three individuals collecting firewood a little distance from their car on a county road near the lake. The wardens made contact with the individuals and saw several open containers of alcohol in their car. The individuals took the wardens back to their fish camp, where one warden found several game fish with no hook marks in their mouths. After further questioning, the individuals said they caught the fish in their nets. One warden found two cast nets. Cases are pending.

**—That's a Lot of Hunting Gear—** A Limestone County game warden apprehended an individual for hunting from a public roadway. The warden first saw the vehicle on the public road without its headlights on. When the warden stopped the vehicle, he found night vision goggles, a legally possessed high-powered rifle with a suppressor attached, a spotlight and loaded handgun. The individual said he had permission to hunt on both sides of the roadway, though the warden could not confirm his story. Cases are pending.

**—Because He Didn't Want to Break the Law—** A Polk County game warden was patrolling a private neighborhood when he observed a truck with fishing poles in the back leaving a private pond where no

fishing was allowed. When the warden stopped the vehicle to determine if the individuals had been fishing in the private pond without consent, he discovered the driver had not possessed a valid Texas driver's license since 1992, had no vehicle insurance, had two felony arrest warrants from the neighboring county and had stolen license plates displayed on the vehicle. The driver said he had intended to go fishing in the pond but, after getting out and walking around, he decided to go home because he did not want to break the law. The warden arrested the driver for the outstanding warrants and possession of stolen property before turning him over to the Polk County Sheriff's Department. Cases are pending.

**—No More Catfish for You—** A Polk County game warden patrolling the Trinity River below the Lake Livingston Dam found two individuals who had exceeded the daily bag limit for blue catfish by 26 fish. Several cases and civil restitution are pending.

**—Stranded on the Water—** A Leon County game warden received a call from stranded bow fishermen on the Trinity River. The fishermen had launched their boat at the Highway 79 Bridge and made it about 30 miles south when the boat motor quit. The fishermen were prepared with cell phones and a SPOT GPS Rescue Beacon, so they were able to give their GPS coordinates to the warden. The warden found

the fishermen from land, gave them a ride back to their truck at the bridge on Highway 79, and then led them back to their boat to load it.

**—Surviving an ATV Accident—** A Zapata County and a Duval County game warden responded to an ATV accident near the Falcon Lake shoreline. The wardens found a 13-year-old girl who had crashed her ATV lying on a steep embankment, a few feet from deep water. The ATV was partially submerged. The girl sustained a broken femur and head trauma. The wardens gave medical aid until Zapata Emergency Medical Services arrived. The girl was then transported to Laredo.

**—Boating While Intoxicated—** Two game

wardens patrolling Falcon Lake for water safety violations saw a personal watercraft (PWC) violate the 50-foot rule, which prohibits operation within that distance of another craft. After the wardens turned on their emergency lights, the PWC continued toward the bank. After contacting the operator, who didn't have any identification, the wardens administered seated Standardized Field Sobriety Tests in their state boat since the operator said he'd had a "few" drinks that day. Following the seated test, the wardens conducted the standing SFST; both tests indicated the operator was intoxicated. He was placed under arrest for BWI and booked into Zapata regional jail.

**—Body Found in the**

**River—** Two Zapata County game wardens received a call from the Zapata County Sheriff's Office about a body floating in the Rio Grande River. When the wardens arrived on scene, they walked in the shallow water to recover the body. The wardens found a Mexi-

can identification card on the body and believed he crossed into the United States illegally. The wardens turned the body over to the Zapata County Sheriff's office for an investigation.

## Healthy Foods Help Welcome Autumn

By Sue Hampton

New ideas for healthy cooking are always in short supply. Come September, we say goodbye to our barbecue grills as well as the usual hamburgers and hot dogs that so often accompany it and our thoughts turn to making meals that are heartier, healthier and more satisfying than the average summer fare.

In the fall, millions of people are faced with the same difficult question: "What can I cook that is easy and healthy?" With so many watch-

ing cholesterol levels and trying to eat better, it is important to cook food that is tasty and healthy.

As luck would have it, September is National Cholesterol Education Month. Why not try this easy recipe for Balsamic Pasta Salad and get on the road to quick and healthy cuisine.

### Balsamic Pasta Salad

2 quarts water  
1-1/2 cups uncooked medium pasta shells  
3/4 cup broccoli  
3/4 cup chopped cauliflower  
1 medium red bell pepper, cored and cut into 1/4-inch strips  
1/3 cup balsamic vinegar  
3 tablespoons water

1/4 teaspoon ground black pepper  
2 cloves garlic, minced  
2 teaspoons dried basil  
2 teaspoons non-fat Parmesan

Bring water to a rapid boil in a large, covered pot. Slowly stir in pasta. Return to a boil. Stir pasta with a long-handled wooden fork to prevent it from sticking together. Follow recommended cooking time on the package. Pasta should be cooked through but still firm. Check for doneness by biting into a piece of pasta rinsed in cold water. Drain cooked pasta into a colander in the sink.

Place broccoli, cauliflower and red bell

pepper in a steamer basket over boiling water, cover, and steam for two minutes. Plunge into cold water and drain thoroughly.

Whisk together the vinegar, water, black pepper and garlic.

Combine dressing, vegetables, and pasta in large serving bowl. Toss to coat all ingredients and sprinkle with basil and parmesan. Serve at once!

**Needs Your Help!!!**

*If you know a family that has a child that meets our criteria, just have them call us.*

*We'll take over from there!*

*"Every child deserves a chance to fish!" Children diagnosed or who have experienced a life-threatening illness or accident sometimes do not have that opportunity. Now through the "Wish to Fish Foundation" they can have that day in the sun with their family. Any family with a child between the ages 3 to 18 years of age that has been diagnosed or treated for a life-threatening illness or accident is invited to come fish Lake Fork for any species of fish at **NO COST!** Lodging, meals, and fishing are provided for. This allows the family to spend quality time together fishing without worries or expenses. The outing includes one night lodging, meals, refreshments, snacks, all on a 26' Tritoon Pontoon, (accompanied with a 9-1-1 chase boat for any emergency that may occur. All bait and fishing equipment provided. If you are, or know of a family that meets the above criteria, contact us! Help us spread the word, we are here for the children!*
